## Work Experience

### Technical UI Designer

Insane | Aug. 2022 - present

- Spearheaded the UI implementation for "Profane", an open-world Sandbox MMORPG, utilizing Unity's new UIToolkit.
- Ensured all interfaces strictly followed UI/UX heuristics and best practices.
- Collaborated within a 50-person development team to guarantee the final UI functionality and high-quality standards aligned with feature specifications.

### Unity Developer / Programmer

Hotcafe Team | Dec. 2021 - Apr. 2022

- Developed the front-end for "Feudalz", a high-grossing NFT blockchain game, ensuring seamless integration with the back-end team.
- Programmed core game mechanics using Unity 3D and C#, applying OOP and SOLID principles to maintain scalable and clean code.
- Contributed to a US-based hub focused on successful NFT collections and Web3 game development.

### Teacher in Game Development

SENAC | Aug. 2021 - Dec. 2021

- Instructed students remotely for "Educar para Trabalhar", a government initiative aimed at professionally qualifying youth for the tech job market.
- Guided students through the complete electronic game development lifecycle, covering pre-production, prototyping, execution, and post-production across 4 curricular units.
- Taught technical and practical implementation using the Unity engine as the primary framework.

### Unity Developer / Programmer

MTI Studio | Oct. 2019 - Aug. 2022

- Planned, developed, and implemented core features and functionalities across various games, applications, and platforms.
- Programmed extensively using C# within the Unity framework, contributing to diverse projects for an international client base spanning over four countries.

Co-Founder & Programmer

Tinguá Game Studio | Feb. 2017 - Oct. 2019

- Co-founded a startup dedicated to developing digital games, simulations, and serious games, successfully showcasing projects at major industry events like Game XP and BIG Festival.
- Led project direction and game design definitions, overseeing the entire development pipeline from concept to execution.
- Spearheaded programming efforts, assessing technical feasibility and developing core game mechanics using Unity and C#.

Education

Post-Graduation in IT Business and Project Management.

Federal Institute of Education, Science and Technology of Rio de Janeiro - IFRJ Eng° Paulo de Frontin - Rio de Janeiro | 2019 - 2021
